

Each part of the craft performs its function perfectly, revealing the rationale behind the design. The forward sun-pad is prolonged down the sides. The C shaped divan astern gives two extra seats as compared to traditional benches. The steering console seat can be opened or folded back according to need.

The generous bathing platform astern adds to the surface area available. Great care is given to every detail, from the elegant teak glass holders, to the perfectly ergonomic steering station.

CARATTERISTICHE TECNICHE

Overall dimension: 6,20 x 8,70 mt
 Internal dimension: 5,60 x 1,52 mt
 Ø Tub.: 60/42 cm
 Ind. Chamb.: 5
 Category: B
 N° person: 12
 Weight Kg: 950
 HP max: 200
 Transom height: XL
 Stainless steel fuel tank details: 240 lt.

DOTAZIONI STANDARD

- Lifting rings
- Stainless steel stern cleats
- HI POWER
- Console with windshield, SS handles and steering wheel
- Self-draining deck with safety valves
- High density cushions
- Dinette
- Anchor compartment and bow compartment
- Stern compartment
- Mooring stainless steel rings (bow & stern)
- Electric air pump
- Fresh water system with shower
- Stern compartment with gas springs
