

Lightweight professional power

Weighing just 30 kg, the compact EF2800i features a special design that combines a cooling fan for both engine and generating unit in one space-saving unit.

This unique design keeps the EF2800i light, so it's perfect for any occasion when you need heavy-duty power that's easy to move from place to place. Switch to Economy Control and you can enjoy operation times of up to 17 hours at 1/4 rated load.

It's also an incredibly resilient machine, with an oil warning system that automatically shuts down when oil is low to ensure durability, and a cast-iron cylinder lining to ensure consistent performance whatever demands are made of it.
